

# Class 455/8 Reskin Pack

By Chris Horsfield and Danny Leach

This pack provides updated reskins for the Class 455/8 Electric Multiple Unit, supplied with DTG's Portsmouth Direct Line. These reskins were originally produced by Danny Leach some months ago, but I decided last weekend to update them somewhat (initially just two reskins), and ended up making quite a few changes overall.

I approached Danny about releasing the updated versions and he was more than happy for me to do so, in fact handing the whole original pack over to me to do my thing with! All those original reskins are included here, apart from the Connex 'Ghost' reskin, due to a couple of issues.

I have completely remade the South Central Division destination blinds from scratch (List is provided at the end of this manual), with examples being the much older 'Black on White' along with the more recent 'Yellow on Black' style they used, before the LED destinations used nowadays were fitted during refurbishment.

Also within this pack is the fixed InputMapper file. This fixes an issue which was preventing keyboard functionality within the cab.

I have provided a whopping 48 Quick Drive consists, which cater for every variation of liveries, destination blind colours, No-driver cabs, No-Passenger saloons etc.

The South West Division (BR Blue/Grey, NSE, SWT) destinations and assignments are unchanged from the PDL 455.

## THE RESKINS:

BR Blue / Grey

Connex South Central

Connex (Unbranded)

Network SouthEast

South West Trains (Old Livery)

Southern (Pre-refurb)

## THE REQUIREMENTS:

Portsmouth Direct Line (London to Portsmouth)  
Class 455 Sound Pack

Steam  
Armstrong Powerhouse

You must have the Sound Pack installed, as this pack has been specifically configured to work with it.

## INSTALLATION:

Copy the Assets folder, and paste it into your main Railworks directory. (Make sure you overwrite if you are prompted).

Then go into your Assets folder, and run the **Install CH Class 455** batch file. This will automatically move the correct .GeoPcDx files to the correct folders, saving you the hassle of manually copying and pasting.

-----

A massive THANK YOU to Kevin Butler (Images), Ash Clark (Sound fix and texture adjustment), Lewis Clowes (Batch), Matt Gooderson (Testing), Danny Leach (Permission and Generosity) and Cody Sayle (Testing), for their contributions towards this pack. Without you guys, nobody would be reading this!

# DESTINATIONS LIST - SOUTH CENTRAL DIVISION

a	Blank	C	Smitham
b	Balham	D	South Croydon
c	Battersea Pk.	E	Streatham
d	Beckenham Jcn.	F	Streatham Hill
